

sono*silence* 300

membrane acoustique

The **SONO SILENCE** bring an extra isolation. The high density construction insures noise reduction and helps prevent moisture. The integrated aluminium reflective vapor barrier helps keep your floor warmer by reflecting the heat up. It is recommended for all types of floating floors, suitable for concrete subfloor and recommended for radiant heated floors.

Specifications

Material composition

Neoprene Foam (LDPE/EVA)

Integrated reflective aluminium film

SF PER ROLL	200 sf
ROLL SIZE	48" x 50'
THICKNESS	3 mm
WEIGHT	15 lbs
NOMINAL DENSITY	150 kg/m ³
FIRE CLASSIFICATION	C-s1
IIC	72 dB
STC	66 dB
